

The 3rd Kadeejeen Art in Sois Festival

The Association of Siamese Architects under the Royal Patronage is inviting you to **the 3rd Kadeejeen Art in Soi Festival**, an annual art and culture festival of the neighborhood aimed to strengthen community participation and network building for the purpose of conservation and revitalization of this historic neighborhood. Initiated in 2010, the event this year will expand to Klong Sarn under the theme **Kadeejeen – Klong Sarn - Saphan Phut : Art of Three Piers**. To be showcased at the festival are works of art, design and lighting in public areas, inspired by environmental problems in cities. Other features include exhibitions, music and talks commemorating a number of special occasions of these neighborhoods: **500 years of Thai-Portuguese Diplomatic Relations, the 130th anniversary of the Thai classical music master, Tua Patayakosol**, and **the 80th anniversary of Saphan Phut Bridge**.

**The 1st and 2nd Kadeejeen Art in Sois Festival are joint collaborations of communities, religious institutions, schools, universities, government agencies, artists' networks and non-profit organizations. This project is the only one from Asia to be recognized for the best practice in social lighting 2011 by Lighting Urban Communities International (LUCI), an international organisation in lighting design for architecture and cities, and the major organizer of La Fête des Lumières, Lyon, France.*

Program
